THESAURUS OF ERIC DESCRIPTORS—SIXTH EDITION

The *Thesaurus of ERIC Descriptors* has been developed during the past 9 years under the auspices of the Educational Resources Information Center (ERIC) as an essential tool for users of **Resources in Education.** This edition, published by Macmillan Information, A Division of Macmillan Publishing Co., Inc., supersedes previous paperback editions. Also included is *The Role and Function of a Thesaurus in Education* by Dr. Frederick Goodman, Associate Professor of Education at the University of Michigan. This special article will bring to educators and other professionals the insight of one of the leading educators in the field of vocabulary development and communication.

Searches of the ERIC system can be done more quickly and in greater depth by consulting the newest thesaurus. The *Thesaurus of ERIC Descriptors* may be purchased for $7.95 from Macmillan Information at the address given above.

ANNUAL CUMULATIONS OF RESOURCES IN EDUCATION

ERIC EDUCATIONAL DOCUMENTS (RIE) ABSTRACTS

These volumes bring together, in succinct abstract form, reports covering *current, significant topics in the field of education.* They provide ready reference to trends and new curriculum developments, school operations, teaching methods, library services, and literally hundreds of other subjects of urgent concern to professional educators. Each abstract cites the author, source, publication date, availability, and price of the original report; and most abstracts provide a clear, concise summary of the report's contents and conclusions.

Included are all reports which have appeared in *Resources in Education,* a monthly report announcement journal available through the Government Printing Office.

Calendar years are bound in separate volumes. 1968/1969/1970/1971/1972/1973/1974/1975

$50.00 per volume

ERIC EDUCATIONAL DOCUMENTS (RIE) INDEX

Gathered for the first time in one source are the indexes to all research documents in the ERIC collection: *Research in Education,* 1966 through 1974; *The ERIC Catalog of Selected Documents on the Disadvantaged;* and *Office of Education Historical Reports.* 1956 through 1965.

These subject-author indexes provide titles and identification/accession numbers to the documents and report literature announced in the monthly issues of RIE. The use of these indexes reduces the number of sources previously necessary for retrospective searching in the ERIC document collection.

1966–1969 (2 vol.)	$60.00
1970–1971/1972/1973/1974/1975	$35.00/volume

ERIC BIBLIOGRAPHIES

The following bibliographies provide access to all documents processed by ERIC on a given subject; they are designed to serve the information needs of researchers in specific areas of specialization.

Each volume includes citations derived by searching the ERIC data base utilizing a profile of subject terms from the *Thesaurus of ERIC Descriptors.* Journal articles pertaining to the subject and indexed by CIJE are also included. Each volume is organized into four sections: *ERIC Documents, ERIC Journal Articles, Subject Index,* and *Author Index.*

ERICTAPES ERICTOOLS

HAVE A COMPUTER?

LOOK AT ERICTAPES!

The Educational Resources Information Center (ERIC) data base is now available on magnetic tape in a variety of formats and options from Operations Research Incorporated. Under special authorization from the National Institute of Education (DHEW), these tape files are offered at unusually low cost to encourage the widest possible dissemination.

The ERIC data base provides coverage of the significant literature in the field of education research. Report literature (announced in *Research In Education*) is covered from 1966 to date, and journal article literature (announced in *Current Index to Journals in Education*) is covered from 1969. Monthly, quarterly, and annual updates are available for *RIE*, and quarterly and annual updates for *CIJE*, so that the files may be kept current.

The basic files are available in either the ERIC Format (IBM 360 OS) or in the Library of Congress MARC II Format. These files include the complete resume, (document description, indexing, and abstract or annotation) of each document announced in the respective journal, in accession number order. A variety of peripheral files, including Postings Files (inverted subject and source indexes) and the Thesaurus (controlled indexing vocabulary) are also available on magnetic tape, and almost any segment of the master files is obtainable on Special Order.

The files may be purchased individually or as a collection, and substantial discounts are available on annual subscriptions for updates. The files are written on new, high quality, 9-track tapes (600-1200, or 2400-ft., as appropriate) at either 1600 or 800 BPI and are guaranteed. Prices per tape reel start as low as $50.

NO COMPUTER?

LOOK AT ERICTOOLS!

For organizations without access to a computer.* ERICTOOLS provide manual multi-viewpoint access to the ERIC document collection. ERICTOOLS are a series of printed indexes, directories, and cross-reference lists, which have heretofore been available only internally to components of the ERIC network. The Title Index provides access by document title. Postings publications provide access by subject index terms, i.e., Descriptors (controlled indexing vocabulary), and Identifiers (uncontrolled subject indexing); and institutional sources, i.e., corporate authors and sponsoring agencies. Cross-reference lists lead the inquirer to the accession number (ED number) from: Report Number; Project Number; Contract Number; Grant Number; and Clearinghouse Accession Number. Also offered is the ERIC Operating Manual, the rules, procedures and guidelines which keep the many components of the ERIC network synchronous with each other.

The documents are available individually and on annual subscription at a discounted price. Prices start from as low as $10 for some individual documents.

*Many of these documents are also valuable tools for computer searchers.
